

For Parents: Yukon Education Grade Alignment Chart

The following chart shows how standards-based grades/proficiency levels will be converted to traditional percentage and letter grades for the purpose of official transcripts (in Grades 10-12).

Proficiency Scale	Percentage Grade Range	Yukon Letter Grade
Extending (4) The student demonstrates a sophisticated understanding of the concepts and competencies relevant to the expected learning.	86 - 100	A
Proficient (3) The student demonstrates a complete understanding of the concepts and competencies relevant to the expected learning.	73 - 85	B
Developing (2) The student demonstrates a partial understanding of the concepts and competencies relevant to the expected learning.	67-72	C+
	60-66	C
	50-59	C-
Emerging (1) The student demonstrates an initial understanding of the concepts and competencies relevant to the expected learning.	<50	F

Where there is insufficient evidence available to determine a proficiency level, an “I” may be reported. Comments will clearly communicate whether the “I” is because the student has shown no evidence of understanding in their submitted work or has not submitted evidence. When “I” must be converted to a grade in Grades 10-12, it will become: Percentage Grade Reported **25%**, Yukon Letter Grade **F**.
